

Sessional Examination as a mechanism of Internal Assessment:

In order to assess the students internally, the college conducts sessional examinations in a fixed interval of time. Sessional examinations are conducted by the institution to evaluate the performance of the students both in theory and practical. College provides all the guidelines of the sessional examinations during the orientation programme, conducted for the first semester students every year. The faculty members of all the departments also discuss the guidelines of the sessional examinations in their first lecture. The conduct of the sessional examination starts with the notice served by the Principal of the college in this connection. The dates of the sessional examinations are finalized in the meeting of the academic council headed by the Principal of the college. The question papers for the sessional examinations are set by the faculty members of the respective departments, as per the guidelines of the Gauhati University (Affiliating University). The dates for the sessional examinations are notified to the students by the Examination cell of College at least two weeks in advance of the conduct of the examination. During the examination invigilators are appointed from the faculty members of the institution in 20:1 ratio. Usually faculty members from different streams are assigned invigilation duties. In the examination hall, optimum distance is kept between any two students of same domain, usually two students are allowed to seat in a large sized bench. No student is allowed to enter in the examination hall after 15 minutes of the commencement of examination. Further, no student is allowed to leave the examination hall before the end of examination unless any medical emergency arises. After the sessional examinations are over, the answer scripts are evaluated by the faculty members of the concerned departments. The department maintains complete transparency in Sessional examinations. In this case, the department follows the guidelines given by the affiliating university. All the evaluated answer scripts are shown to the students for verification, when the classes start after the sessional examination and any grievance is redressed immediately by the HOD of the respective departments. If the students face some sort of problem in solving the questions, then the question paper is solved/discussed in one or two classes. The students who are found weak in some topics are taken to the remedial classes, taken by the faculty members of the respective departments in extra time. The records of marks are kept in the merit register of sessional examinations of the respective departments. Finally, the marks are sent to the affiliating university through online mode for final evaluation of the students.
